

Meet the New Additions to Our Park Staff!

Hello! My name is Laurie Berie. I am the new park manager. I have thirteen years of park board and management experience as well as a very strong background in customer service and event planning. I currently reside in Emsworth, however, have always been drawn to the Zelienople area and its quaintness. A good community park is an important asset to any community. I look forward to not only enhancing the current programs and activities at the park, but also making sure that there are activities for all ages and walks of life. I would like to see all of the local residents enjoy everything that our park has to offer.

Hi Everyone! My name is Ashley Hazlett and I am a new resident of the area. I hold a Master's Degree in Park and Resource Management, as well as work at the Jackson Township Municipal Building. I am excited to announce that Jackson Township is teaming up with the park to expand our recreational programming. I look forward to helping plan and promote a number of activities and seasonal festivals in the park. We all live in a great area, and we want the residents to take full advantage of the wonderful park and events that are held. I look forward to meeting all the locals at the park this year. Cheers!
